

EfTA Student Internship Program

2010 Summer Intern – Nikki W.

This internship has been amazing. When I first signed up for this, I didn't expect that it would be difficult some days. As I started learning what to do, and how to do it, I began to find it easier and easier each day. The children make the work you put in so rewarding. When they finally understand a concept, even as little as saying hello to you, it reminds me that I want to go into this field. My mentor was also wonderful. She was there from start to finish to make me feel comfortable and answer any questions I had. Even though I didn't work with all of the teachers, each of them welcomed me and always helped me when I asked. I hope to continue in this field and find a place like The Learning Lane with people to work with like the ones I've met here.

2010 Summer Mentor – Alexandra S.

Being a mentor has been a wonderful experience. It is so nice to see a young adult knowing what she wants to do with her life and getting experience now. She was eager to try anything with the children and always smiled around the children. I have enjoyed sharing my knowledge and experiences. She never hesitated to ask a question. She has noticed the differences in the children and how we work with them differently in each class. She is even eager to look for more experiences.
