

Mrs. Alexandra joined TLL in September 2009. She has worked in several teaching roles at TLL and has gained lots of experience in each, including behavior therapist, teacher and tutor. Mrs. Alexandra brings much experience to TLL, she received her bachelor's degree in Psychology at Queens College, and completed an internship in Autism in NY. She then continued her schooling for her Master's degree at C.W. Post Long Island University for a dual degree in Elementary Education and Special Education with a concentration in Autism. Mrs. Alexandra is Certified General and Special Education in the state of NY for Birth-grade 6 and, in Texas for Generalist EC-6 and Special Education EC-12. She is presently partaking in coursework at Florida Institute for Technology for a BCBA certification. Mrs. Alexandra found that after interviewing at other ABA schools, something for her was missing. That something, she found here at TLL in social skills classes, classroom readiness, music therapy and interacting with neighborhood children. She is also excited that TLL nurtures staff by expanding their knowledge and abilities in this field. Mrs. Alexandra loves how everyone at TLL is here for the best interests of the children. She feels generalization is an important skill and likes how that is worked on daily. Mrs. Alexandra particularly enjoyed seeing the students use all the skills they were taught while at the Special Olympics event hosted by TLL.
