

### **The Learning Lane Employee Mini Bio**

**Name:** Stephanie Schlacks

**Position:** Acquisition / Pre Academic

**Please describe your educational / experience background.**

I received a B.S in Psychology from Texas State University in 2009. During college I worked as a Home Caregiver for a teen with autism. This really opened my eyes and heart to the families of children with autism. I conducted an Honors Thesis on staff-client relationships, which has taught me how to be a better therapist. I am starting graduate school at Univ. of Houston part time in the Fall to get a Masters in Counseling in the department of Educational Psychology.

**How long have you worked with The Learning Lane?**

I just started working for the Learning Lane in March. After graduating college in December, I moved back to my hometown, The Woodlands, and was very lucky to find this school!

**Why have you chosen to work at The Learning Lane?**

My experience and education introduced me to the field of behavioral psychology. After being a home care provider for a teen with autism I realized that I wanted to work with children. I worked with parents, siblings, teachers, and therapists that all had influence on my teaching style. I was very lucky to find The Learning Lane because it is a perfect match!

**What do you like most about your job?**

I truly enjoy all the children and employees at TLL. Every child is unique and I enjoy getting to know each and every one.
